International Balzan Prize Foundation

Description

Every year, four Balzan Prizes are awarded to scholars and scientists who are distinguished in their fields on an international level. The aim of the Balzan Prize is to foster culture, the sciences and the most outstanding humanitarian initiatives of peace and brotherhood among peoples, regardless of nationality, race or creed.

The subject areas for the 2023 prizes are:

- World Literature
- Evolution of Humankind: Paleoanthropology
- Evolution of Humankind: Ancient DNA and Human Evolution
- High resolution images: from planetary to cosmic objects

Eligibility

The subject areas in which the awards are granted are rotated, and this special characteristic of the Balzan Prize ensures the promotion and recognition of new or emerging fields of study or research that may have been overlooked by other international awards. No more than four prizes may be awarded in any one year. **Self-nominations are not accepted.**

Prize

A monetary prize of 750,000 Swiss Franc (approximately CAD \$995,550). The winners are each required to allocate half of their prize money to funding research projects carried out preferably by young scholars or scientists in their respective fields.

Special Notes

Please note that research activities carried out in the context of COVID-19 need to adhere to the University of Guelph COVID-19 research principles, policies, guidelines and processes as they may be updated from time to time and communicated on the [Office of Research web-page](#) [1].
