

## The Canadian Academy of Engineering Fellowship 2023

### Sponsor

The Canadian Academy of Engineering

### Description

Election to the Canadian Academy of Engineering (CAE) is one of the highest professional honours accorded an engineer. Fellows have distinguished themselves in different sectors including business, academia and government and in different roles such as business management, executive management, technical and university faculty. Fellow of the CAE are nominated and elected by their peers (current CAE Fellows) to honorary fellowship in the Academy in view of their distinguished achievements and career-long service to the engineering profession.

### Eligibility

Individuals can not apply for fellowship in the CAE. The procedure for nomination and election of fellowship candidates begins with a search by present Fellows of the CAE for outstanding engineers. Candidates must be either a Canadian Citizen or permanent resident and have made substantial contributions to engineering in Canada, another country or globally, with a significant impact on society including one or more of the following categories:

- Significant contributions to the pioneering of new and developing fields of technology or engineering knowledge;
- Significant contribution to the art and practice of engineering;
- Significant contributions to the development of organizations which are based on engineering knowledge.

A candidate for fellowship shall be recognized by associates and others for professional integrity as well as for engineering accomplishments. Unique effectiveness and efficiency in leadership of organizations that have conducted pioneering or complex programs or that have made noteworthy contributions to industry, engineering education or public policy affecting engineering should be considered in addition to the primary qualifications outlined above. The contributions must surpass what would normally be considered a successful career in the field of the candidate.

A completed nomination form must be submitted to the CAE, signed by three current Fellows of the Academy. The nomination form and guidelines are only available to current Fellows and are

posted in the Fellows section of the program website.

## Deadlines

**If College-level review is required, your College will communicate its earlier internal deadlines.**

Type	Date	Notes
<b>External Deadline</b>	Tuesday, October 31, 2023 - 9:00am	Applications must be submitted online using the nomination form provided in the fellows section on the <a href="#">Canadian Academy of Engineering Fellowship web-page</a> by the external deadline. Please also submit an OR-5 and a completed application to <a href="mailto:research.services@uoguelph.ca">research.services@uoguelph.ca</a> by the external deadline.

## How to Apply

Applications must be submitted from three current Fellows of the Academy using the nomination form provided in the fellows section on the [Canadian Academy of Engineering Fellowship web-page](#) by the external deadline. Please also submit an OR-5 and a completed application to [research.services@uoguelph.ca](mailto:research.services@uoguelph.ca) by the external deadline.
