Canadian Science Policy Centre

Description

The CSPC Trailblazer Awards recognize individuals who have demonstrated novelty and creativity through leadership, vision, courage, and commitment, and positively and significantly impacted the Canadian Science, Technology and Innovation ecosystem. These individuals have been instrumental in boldly spearheading change via one or more transformative initiatives, while blazing a trail and inspiring others to follow.

CSPC 2024 will present four [Trailblazer Awards](#), one in each of the categories of Policy for Science, Science for Policy, Innovation Policy and finally, a new award as of this year: Science & Society.

CSPC encourages nominations from all disciplines of policy and science (natural sciences, engineering and technology, health and life sciences, social sciences, arts and humanities) and from all sectors (governments at all levels, academia, private and nonprofit sectors, media, and others).

Please note that technological or scientific discoveries or inventions are not considered for this award.

The [Youth Award](#) recognizes an individual under the age of 35 who proposes an innovative and compelling evidence-based policy proposal that will make a positive impact to Canadian society, economy, and/or environment. Proposals should be connected to one or more of the [themes/topics for the 2024 CSPC Conference](#).
