

Canola Council of Canada (CCC): LOI for Canola Agronomic Research Program 2023

Sponsor

Canola Council of Canada (CCC)

Program

[Canola Agronomic Research Program \(CARP\)](#) [1]

Description

The Canola Agronomic Research Program (CARP) is funded by the three provincial canola grower organizations – Alberta Canola, SaskCanola, and the Manitoba Canola Growers – and administered by the Canola Council of Canada. Projects are selected for funding by canola growers.

Additional funds for selected projects are provided by the Western Grains Research Foundation (WGRF) and other occasional funding partners.

Since 1985, CARP has supported canola agronomic research focused on increasing yield and profitability, reducing production risk and enhancing sustainability with effective technology transfer. Results are integrated into information tools such as the [Canola Research Hub](#) [2], [Canola Digest](#) [3], [Canola Watch](#) [4], the [Canola Encyclopedia](#) [5] and extension presentations.
