

Faculty Information Exchange Series 2017-18: Best Practices in International Research

Date	Location	Notes
Wednesday April 11, 2018 12:00pm to 1:00pm	UC 441	Webinar participation available, proceed to webinar here . No reservation necessary, all welcome! For more information contact Patti Minakis, ext. 56943 Be part of the conversation.

Description

Led by:

- **Dr. Manish Raizada**, Professor & International Relations Officer, Department of Plant Agriculture
- **Dr. Helen Hambly Odame**, Associate Professor, School of Environmental Design & Rural Development

Successful international grant recipients will present on best practices and strategies for researchers to help secure international funding toward building their research program and manage their projects in complex settings.

This is an opportunity to have international collaborations questions discussed.
