
Fiscal Year 2020 Department of Defense -Vision Research Program

Sponsor

US Department of Defense (DoD)

Program

Congressionally Directed Medical Research Programs (CDMRP).

For More Information

Visit [Congressionally Directed Medical Research Programs \(CDMRP\)](#) [1] for more information about administered programs

Description

Program Funding Opportunities - Vision Research Program [Website](#) [2]

Focused Translational Team Science Award (FTTSA)

Investigator-Initiated Research Award (IIRA)

Translational Research Award (TRA)

Special Notes

Please refer to the [Office of Research COVID 19 web-page](#) [3] for directives related to research activities at the University of Guelph.

How to Apply

Detailed descriptions of funding opportunities, evaluation criteria, and submission requirements can be found in the specific Program Announcements. The Program Announcements are available electronically for downloading from the [Grants.gov](#) [4] website, the [CDMRP](#) [5] website and the electronic Biomedical Research Application Portal ([eBRAP](#) [6]).

All CDMRP funding opportunities, both recently and previously released, are available on

the [CDMRP website](#) [7].

For more information on types of funding opportunities offered and application strategies review the CDMRP webinar series: https://cdmrp.army.mil/pubs/Webinars/webinar_series [8].

Submission is a **two-step process** requiring both pre-application submission and full application submission. All pre-applications must be submitted through [eBRAP](#) [6]. Full applications from extramural organizations (non-DoD organizations) must be submitted through [Grants.gov](#) [4]. Refer to the General Application Instructions, Section II.A. for registration and submission requirements for eBRAP and Grants.gov. For detailed information on the submission process, refer to Section II.D. of the Program Announcement/Funding Opportunity.

eBRAP is a multifunctional web-based system that allows PIs to submit their pre-applications electronically through a secure connection, to view and edit the content of their pre-applications and full applications, to receive communications from the CDMRP, and to submit documentation during award negotiations and period of performance. A key feature of eBRAP is the ability of an organization's representatives and PIs to view and modify the Grants.gov application submissions associated with them. eBRAP will validate Grants.gov application files against the specific Program Announcement/Funding Opportunity requirements and discrepancies will be noted in an email to the PI and in the Full Application Files tab in eBRAP. It is the applicant's responsibility to review all application components for accuracy as well as ensure proper ordering as specified in this Program Announcement/Funding Opportunity.

If you wish to apply please contact Angela Vuk as soon as possible so we can support you through the eBRAP system and application process.

For Questions, please contact

Please follow-up with the contacts identified in the applicable funding Announcement.
