Sponsor

Global Energy

Description

The “Global Energy” international energy prize is awarded for outstanding scientific research and scientific-technical developments in the field of energy which promote greater efficiency and environmental security for energy sources on Earth in the interests of all. The “Global Energy” prize stimulates the development of energy in terms of science and underscores the importance of international cooperation and state and private investment in the sectors of energy supply, energy saving and energy security on the planet.

In accordance with data from the IREG Observatory on Academic Ranking and Excellence, the “Global Energy” prize figures in the “Top 99” most prestigious and significant international awards. Since 2003, 42 researchers have become the Global Energy Prize laureates representing 15 countries: Australia, Austria, Canada, Denmark, France, Greece, Iceland, Italy, Japan, Russia, Sweden, Switzerland, the UK, Ukraine and the USA.

Citizens of any state can become a laureate of the Prize.

Candidates for the Prize can be nominated by the nominators. These are scientists and/or organizations acting via their representatives who have been verified on the organizer's website and received confirmation of their nominating status, as well as persons specially invited by the organizer to the nomination pool.

The Prize is not awarded:

- To the same person for the same achievement twice;
- To the members of the International Award Committee and to former members of the International Award Committee during the first two years after their resignation therefrom;
- Posthumously.

Additionally, persons performing solely administrative and/or organizational functions cannot be nominated.

Self-nomination for the Prize is not allowed. The nominator can file up to three nomination submissions in the course of one nomination process.

Prize

The award package of the prize includes a gold medal, a gold badge, diploma and US \$500,000.
