

Grain Farmers of Ontario - 2019 Call for Letters of Intent

Sponsor

Grain Farmers of Ontario (GFO)

Program

[GFO Research Programs](#) [1]

Description

Investment in research is a long-term strategic initiative of the Grain Farmers of Ontario. The goal is to target our research, innovation, and knowledge transfer initiatives to enhance our farmer-members' profitability. The updated [2019 Grain Farmers of Ontario Research Priorities](#) [2] are available online. GFO has highlighted five high priority areas. GFO will still accept proposals in all research priority areas, but the high priority areas will be given special consideration. Visit the [Research Project Database](#) [3] outlining current and past Grain Farmers of Ontario research investments.

Grain Farmers of Ontario has implemented a new process for funding which now includes a Letter of Intent (LOI) stage for the 2019 Call for Research Proposals. The purpose of the LOI is to allow researchers to convey a project concept with an estimated budget so that Grain Farmers of Ontario has the chance to screen project ideas and provide feedback prior to requesting the full proposals for successful LOIs. This approach should also make better use of researchers' time developing full proposals by increasing the funding success rate of those project ideas reaching the full proposal stage.
