

Heart and Stroke Grant-in-Aid 2019/2020

Sponsor

Heart & Stroke Foundation of Canada

Description

The Heart & Stroke Grant-in-Aid (GIA) program provides operating funds to support important, pertinent, novel research in the areas of heart disease and stroke. GIA funding promotes research discovery, exploration and innovation across all health research themes. Knowledge gained from scientific findings, contributes to the cardiovascular and cerebrovascular health of Canadians through prevention, treatment and recovery. Research is supported across the four health research themes:

1. Basic Biomedical
2. Clinical
3. Health Services/Systems
4. Social, Cultural, Environmental and Population Health

Please Note:

- GIA applicants are allowed to submit a maximum of one grant application (new or renewal) to the 2019/20 GIA competition as either Principal or Co-Principal Investigator. Applicants are allowed to hold no more than two Heart & Stroke funded GIAs as Principal and/or Co-Principal Investigator at any one time. If an applicant holds ongoing funding as Principal and/or Co-Principal Investigator for two GIAs that are not scheduled to be completed within the coming funding year, no new applications can be submitted.
- Applicants are required to integrate sex and gender-based analysis (SGBA) in their research design. Any application that does not incorporate SGBA must provide a rationale why it would not be relevant to the project. All applicants are strongly encouraged to complete CIHR's Institute of Gender and Health training modules: <http://www.cihr-irsc.gc.ca/e/49347.html> [1] .

Eligibility

Principal Investigators (and Co-PI) must have a full-time academic or faculty appointment (i.e. at minimum, at the Assistant or Clinical Assistant Professor level) in Canada at the time of application. Any applicant in an adjunct position at an academic institution must submit a letter from their dean/chair/division director to clarify their specific appointment, i.e. amount of protected time available, local infrastructure in place.

Indirect Costs

0%

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Thursday, August 23, 2018 - 11:59pm	PI to submit application, signature page along with complete OR5 form to: research.h.services@uoguelph.ca
External Deadline	Thursday, August 30, 2018 - 4:00pm	PI to submit to sponsor using on line application system CIRCULink . [2] FAQ's, guidelines and how to apply [3] can be found on the Heart & Stroke website.

Information For Co-applicants

If you need to meet a deadline set by the lead institution for this opportunity, please ensure that you provide the Office of Research with at least five days in advance of the lead institution's deadline to review the application, or your proposed component of the project. Please be in touch with the Office of Research (contact information below) ahead of the deadline if it looks like it will be difficult for you to submit all the required documentation on time (i.e. budget, proposal, OR-5 Form).
