

Imperial Oil - University Research Awards Program 2020

Sponsor

The awards are funded by Imperial Oil Resources Limited and Imperial Oil, a partnership of Imperial Oil Limited and McColl-Frontenac Petroleum Inc ("Imperial Oil").

Program

[University Research Awards](#) [1]

Description

University research awards are designed to encourage research at Canadian universities in areas of interest to Imperial Oil's petroleum, petrochemical and energy resource development businesses. These areas include the fields of engineering, environmental, earth, chemical, and physical sciences.

Award winners are chosen by Imperial Oil. The selection committee considers business relevance of the proposed research, opportunities for knowledge transfer and potential significance of results to the company. Preference will be given to self-contained research projects, although projects delving into a definitive segment of broader research will be considered.

Eligibility

Awards for specific research projects are made to full-time faculty members to support research work carried out by university students under their direction.

Funding Availability

Individual awards are normally available in amounts ranging from \$10,000 to \$25,000 depending on budgets for the proposed research, availability of funds, and potential significance of the research as determined by Imperial.

Indirect Costs

40%

Project Duration

Awards are made for one year and may be renewed annually for a maximum tenure of three years.

Special Notes

COVID-19

Please note that research activities carried out in the context of COVID-19 need to adhere to the University of Guelph COVID-19 research principles, policies, guidelines and processes as they may be updated from time to time and communicated on the [Office of Research web-page](#) [2].

Terms and Conditions

Successful award applicants and their universities will be required to sign the non-negotiable [terms and conditions](#) [3] of the award.
