
Krescent 2018 Post-Doctoral Fellowships and New Investigator Programs

Sponsor

The Kidney Foundation of Canada

Description

A KRESCENT program Post-Doctoral Fellowship is an “in-training” award intended for applicants with a PhD, MD or equivalent degree. The objective is to attract and foster young investigators to initiate and/or continue training in kidney research.

The KRESCENT program New Investigator Award (NI) is awarded to individuals who have clearly demonstrated excellence during their pre-doctoral and post-doctoral training in kidney disease. The award provides salary support of the faculty appointment at the rank of assistant professor or its equivalent at a Canadian university. The purpose of this award is to assist such an individual to become established as a fully independent investigator in the field of kidney disease.

Eligibility

Post-Doctoral Fellowship: Awards for a Post-Doctoral Fellowship are tenable under the supervision of investigators holding an academic appointment and in areas of investigation where it is clear that the research has direct relevance to kidney disease. The training program must include involvement in actual research, and not only courses in research methods. Candidates with more than four years of post-PhD research training by the competition deadline are not eligible

New Investigator: At the time of commencement of the New Investigator Award no more than three years may have passed since the date of the first faculty appointment. Candidates must hold an appointment at a Canadian university at assistant professor level or equivalent.

Applicants for both Post-Doctoral Fellowship and New Investigator programs must be Canadian citizens or landed immigrants at the time of submission.

Maximum Project Value

Post Doctoral Fellowship: \$55,000 without benefits. Stipends are valued in Canadian dollars and are taxable. It is expected that 50% of the award will be contributed by the KRESCENT

Program and 50% will be contributed by the host institution.

New Investigator: \$65,000 without benefits. Stipends are valued in Canadian dollars and are taxable. It is expected that 50% of the award will be contributed by the KRESCENT Program and 50% by the host institution.

Indirect Costs

0% for both competitions

Project Duration

Up to three years for both awards

Special Notes

The awardee must devote no less than 80% of his/her time to the proposed research for both awards.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Thursday, January 25, 2018 - 4:30pm	Submit OR-5 form and copy of full application including signature page to research.services@uoguelph.ca [1].
External Deadline	Thursday, February 1, 2018 - 11:59pm	The applicant must submit a PDF copy of the full application (including all signatures and addenda) by email to chris.marquis@kidney.ca [2] More information on these competitions can be found on the KRESCENT's Website [3]
