### **For More Information**

[KRESCENT 2019 Post-Doctoral Fellowships and New Investigator Award Programs](#) [1]

### **Description**

A KRESCENT program **Post-Doctoral Fellowship** is an “in-training” award intended for applicants with a PhD, MD or equivalent degree. The objective is to attract and foster young investigators to initiate and/or continue training in kidney research.

The KRESCENT program **New Investigator Award** is awarded to individuals who have clearly demonstrated excellence during their pre-doctoral and post-doctoral training in kidney disease. The Award provides salary support for up to three years of the faculty appointment at the rank of Assistant Professor or its equivalent at a Canadian University.

The purpose of this award is to assist such an individual to become established as a fully independent investigator in the field of kidney disease.

### **Eligibility**

Applicants for both Post-Doctoral Fellowship and New Investigator Award programs must be Canadian citizens or landed immigrants at the time of submission of their application.

Awards for a **Post-Doctoral Fellowship** are tenable under the supervision of investigators holding an academic appointment and in areas of investigation where it is clear that the research has direct relevance to kidney disease. The training program must include involvement in actual research, and not only courses in research methods. Applicants enrolled in programs oriented primarily toward professional specialty training are normally ineligible for the Post-Doctoral Fellowship.

At the time of commencement of the **New Investigator Award** no more than three years may have passed since the date of the first faculty appointment. Candidates must hold an appointment at a Canadian university at Assistant Professor level or equivalent. Candidates

must have a MD, PhD or equivalent degree.

## Funding Availability

**Post-Doctoral Fellowship** - The annual stipend is \$ 65,000 (MD or equivalent degree) or \$ 55,000 (Ph.D. without a MD or equivalent degree) without benefits. Successful applicants are expected to organize their own benefits with the host institution.

Stipends are valued in Canadian dollars and are taxable. It is expected that 50% of the award will be contributed by the KRESCENT Program and 50% will be contributed by the host institution.

**New Investigator Award** - The annual stipend is \$70,000 (MD or equivalent degree) or \$65,000 (Ph.D. without a MD or equivalent degree) without benefits.

Stipends are valued in Canadian dollars and are taxable. It is expected that 50% of the award will be contributed by the KRESCENT Program and 50% by the host institution.
