

KTT Symposium 2024: Building Skills for the Future of KTT in Agri-food

Date

Tuesday April 30, 2024 9:00am to 1:00pm

Location

The Arboretum Centre, University of Guelph
and Online (Zoom)

Description

The annual Knowledge Translation and Transfer (KTT) Symposium, led by the University of Guelph (U of G) and the Ontario Ministry of Agriculture, Food and Rural Affairs (OMAFRA) is back in spring 2024 with a focus on building skills for the future of KTT in agri-food.

Every year this symposium brings together participants from government, academia, industry and regional communities to support networking and capacity development in the agri-food KTT community, and to learn more about ongoing KTT projects funded by the Ontario Agri-food Innovation Alliance.

Join us on Tuesday April 30, 2024 in-person at the Arboretum Centre Auditorium at the University of Guelph or online (Zoom) to:

- Learn about the power and potential of Artificial Intelligence (AI) for KTT in the agri-food space and how AI can elevate the work we do.
- Build practical skills for using AI in your own KTT work.
- Hear from Alliance-funded researchers about effective and innovative KTT for the future.
- Network with colleagues from across government, academia and industry who are working to enhance outcomes in the agri-food sector through innovative KTT strategies.
