List your lab on the CFI's Research Facilities Navigator

Launched in 2013 by the [Canada Foundation for Innovation](#), the Research Facilities Navigator helps innovators locate and connect with publicly funded research facilities that are open to collaboration.

By being listed in the navigator you may increase your lab/facility's exposure to industry and government entities, attract new partnership opportunities and build connections to further your research and improve life.

We'd like to encourage you to take a few minutes to submit your lab/facility profile to the navigator, to do so please visit '[Add a Profile](#)' on the navigator website.
