

Mitacs Training Course Offerings - February 2019

Description

Mitacs Training provides professional development courses to advanced degree graduates, supplementing their education and research experience with the tools necessary to succeed in today's workforce. These courses are facilitated by leading business and industry professionals who have undergone a competitive selection process. Mitacs' facilitators are subject matter experts in their respective fields and understand what it takes to succeed professionally.

Please see the attached document that outlines the courses on offer in Ontario for the month of February 2019. Participants can sign up for courses by registering on Mitacs' customized learning management system, [EDGE](#) [1].

If you have questions about the Mitacs Training courses, please contact training@mitacs.ca [2].
