Description

The Morris Animal Foundation is now accepting proposals for the Established Investigator, First Award, Fellowship Training and Pilot Study grants on topics relevant to animal health in coastal wetland ecosystems.

Topic Summary: Proposals for the Wildlife request for proposals should advance our knowledge and understanding of the health and overall welfare (physical, behavioral and emotional) of animals residing in coastal wetland ecosystems. These ecosystems include fresh and saltwater wetlands within the coastal watershed. Examples include seasonal and permanent coastal freshwater swamps, estuarine saltmarshes, coastal beaches, rocky shorelines, seagrass beds, mangrove swamps, mud flats and sandbars.

Please note: the Morris Animal Foundation are not accepting proposals, inclusive of resubmissions, on other topics under this year's Wildlife request for proposals.

Maximum Project Value

The program budget varies based on the grant category of interest. Please refer to the program guidelines for more details.

Indirect Costs

8%.

Project Duration

Project duration varies based on the grant category of interest. Please refer to the program guidelines for more details.

Special Notes

Please note that research activities carried out in the context of COVID-19 need to adhere to the University of Guelph COVID-19 research principles, policies, guidelines and processes as they may be updated from time to time and communicated on the [Office of Research web-page](#) [3].
