Morris Animal Foundation

Program

Pilot Proposals for the Study of Equine Behavior and Welfare

For More Information

For detailed program information, please visit the [Morris Animal Foundation Grants](#) [1] web-page.

Description

This call is part of the Foundation's Donor-Inspired Study program and is being funded by Dr. Wendy Koch, who has supported Morris Animal Foundation for 30 years.

- The focus should be on improving the lives of horses by increasing our understanding of the behavioral domain. This includes areas such as cognition, learning, stereotypes, separation anxiety, affiliative behavior toward (bonding with) humans, the effects of equine temperament on welfare, and equine psychopharmacology. Projects using behavioral measurements simply as a tool to address non-behavioral hypotheses are not of interest.
- Pilot study proposals should be aimed at generating data to prove the viability of a novel approach or idea.
- The project may involve domesticated or wild horses.

Eligibility

Competitive applicants will have a record of research expertise demonstrated through peer-reviewed publications. A maximum of one application as Principal Investigator (PI) or Co-Investigator in response to this call is permitted.

Maximum Project Value

The budget cannot exceed \$10,000 USD.

Indirect Costs

Not permitted.

Project Duration

12 months maximum

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Friday, September 30, 2022 - 4:30pm	Please submit a copy of your proposal, along with a signed OR-5 form to research.services@uoguelph.ca [2].
External Deadline	Friday, October 7, 2022 - 4:59pm	Applicant submits proposal via the Morris Animal Foundation Grants Portal . [3]

How to Apply

Applicants are to submit their proposals via the [Morris Animal Foundation Grants Portal](#). [3]
