## Description

NSERC will host webinars to assist the research community on “How to complete a Research Tools and Instruments (RTI) application” using the Research Portal.

In order to be better prepared for our webinars, we invite you to familiarize yourself with the following documents:

- RTI program description which includes the Peer Review Manual (which will be updated shortly) and Frequently Asked Questions.
- Instructions for Completing an RTI Application

We would greatly appreciate if you could extend this invitation to potential RTI applicants and co-applicants from your university who would be interested in attending these webinars.

Note that we have limited space in our webinars. Should you not be able to join, you can always connect through the teleconference and follow along with the presentation which will be available on the NSERC website.

Considering the high attendance to our webinars, NSERC staff may not have time to respond to individual questions during the session. Questions should be directed to our support team: RESGRANT@NSERC-CRSNG.GC.CA.

First time attending an Adobe Connect meeting?

- Test your connection
- Get a quick overview

Consult the Webinars page to learn about upcoming information sessions.
