

One Health Institute Awards

Sponsor

One Health Institute at the University of Guelph

Description

One Health collaborations across disciplines, faculties and campuses are important steps to resolving and understanding complex problems that exist at the interface of human, animal, and environmental health.

The One Health Institute offers several studentship opportunities. Faculty members can apply for funding to engage student involvement in One Health research through:

UNDERGRADUATE

- [Robert W. Woolner Undergraduate Summer Research Studentship in One Health](#)
- [International Undergraduate Summer Research Studentship in One Health](#)

GRADUATE

- [The One Health Approach to Climate Change and Sustainability Award](#)

Eligibility

These awards are open to application by University of Guelph faculty. Applications will only be considered if the student will engage in One Health research. For all awards, priority will be given to:

- Early career/pre-tenure researchers
- A faculty member who has not previously received an award administered by the One Health Institute

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

One Health Institute Awards

Published on Research Alerts (<https://www-research.uoguelph.ca/research/alerts>)

Internal Deadline	Monday, January 29, 2024 - 11:59pm	Applications for the undergraduate awards are due. For more information, visit the OHI Awards web page .
Internal Deadline	Thursday, February 15, 2024 - 11:59pm	Expressions of interest for the graduate award are due. For more information, visit the OHI Awards web page .

How to Apply

There are two applications: one shared application for both undergraduate awards and a separate application for the graduate award.

- Faculty applicants may submit **one** project for consideration for the undergraduate awards. There is a check box in the application where you can indicate which undergraduate award(s) you would like to be considered for.
- Faculty applicants may submit an application for undergraduate awards and a **separate** application for the graduate award. If you submit the same project for both undergraduate and graduate awards, you **must** clearly explain the roles of students, differentiating between an undergraduate summer research experience and graduate study.
