

Ontario Genomics: Genomic Applications Partnership Program (GAPP) - Round 19

Updated Information

Ontario genomics has announced revisions to the dates for their GAPP Round 19 call. Revised deadline dates below.

Genome Canada (c/o Ontario Genomics)

Program

Genomic Applications Partnership Program (GAPP)

For More Information

Program guidelines and examples of appropriate partners for collaboration are available at the following links:

[Genomic Applications Partnership Program \(GAPP\)](#) [1]

[Investment Strategy and Guidelines](#) [2]

[Ontario Genomics Quick Financial Guide \(GAPP\)](#) [3]

Description

The GAPP funds downstream research and development (R&D) projects that address real world opportunities and challenges identified by industry, government, not-for-profits and other “Receptors” of genomics knowledge and technologies.

GAPP projects are collaborations between academic researchers and Receptor organizations. They are co-funded by Receptors and other stakeholders and have the potential to generate significant social and/or economic benefits for Canada.

The GAPP aims to:

1. Accelerate the application of Canadian Genomics-derived solutions to real-world

- opportunities and challenges defined by by industry and public sector Receptors.
2. Channel Canada's genomics capacity into sustainable innovations that benefit Canadians.
 3. Enhance the value of Canadian genomics technologies by de-risking and incentivizing follow-on investment from industry and other partners.
 4. Foster mutually beneficial collaboration and knowledge exchange between Canadian academia and technology partners.

Eligibility

To be eligible for GAPP, a project must:

- Develop and apply a genomics-derived product, tool or process for an opportunity or challenge defined by the Receptor(s);
- Focus on late-stage R&D that will position the innovation for near-term implementation / commercialization;
- Be co-led by an academic and a Receptor organization in partnership, with active and necessary roles for both; and,
- Demonstrate the potential to generate significant social and/ or benefits for Canada.

Small-scale proof-of-concept / pilot projects through to large-scale projects will be accepted. Projects should not be in the discovery phase.

Receptor Eligibility:

A Receptor is defined as an organization that intends to put the resulting innovation into practice (in internal operations, by commercialization, or otherwise making it available to its ultimate users). Eligible Receptors include:

- Companies (private / public, Canadian / foreign-owned);
- Industry consortia;
- Government departments and agencies (federal, provincial and municipal);
- Healthcare organizations; and
- Not-for-profit organizations

Small or start-up companies may be considered, as per the [guidelines](#) [2].

The [GAPP Guidelines](#) [2] provide full information regarding the eligibility criteria.

Maximum Project Value

Total project size: \$300,000 to \$6 million. The structure of the funding plan is as follows:

- 1/3 investment from Genome Canada;
- 1/3 provided by the Receptor partner (cash or in-kind); and

- 1/3 of other co-funding.

For more information see [Appendix 2 of the GAPP Investment Strategy and Guidelines](#) [2] and the document [Ontario Genomics Quick Financial Guide \(GAPP\)](#). [3]

Indirect Costs

0% for funding requested from Genome Canada; indirect costs may apply to Receptor (i.e. industry) collaborator(s). Please contact the [Office of Research Services](#) [4].

Project Duration

Typically two – three years. Shorter or longer terms will be considered only if strong rationale is provided.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
External Deadline	Monday, March 16, 2020 - 9:00am	Draft Expression of Interest (EOI) due to Ontario Genomics. This draft EOI does not need to be submitted to the Office of Research Services.
Internal Deadline	Thursday, April 30, 2020 - 9:00am	Final Expression of Interest (EOI) to Office of Research Services. Please submit a signed OR-5 form and the Final Expression of Interest to research.services@uoguelph.ca [4] at least two weeks prior to the external deadline to Ontario Genomics.
External Deadline	Thursday, May 14, 2020 - 9:00am	Applicants are to directly submit their Final Expression of

Ontario Genomics: Genomic Applications Partnership Program (GAPP) - Round 19

Published on Research Alerts (<https://www-research.uoguelph.ca/research/alerts>)

Type	Date	Notes
		Interest (EOI) to Ontario Genomics.
External Deadline	Tuesday, August 4, 2020 - 9:00am	Applicants invited to submit a Draft Supplementary Proposal should submit directly to Ontario Genomics. This draft Supplementary Proposal does not need to be submitted to the Office of Research Services.
Internal Deadline	Wednesday, September 9, 2020 - 9:00am	Final Supplementary Proposal to Office of Research Services. Applicants invited to submit a Final Supplementary Proposal must send a copy to research.services@uoguelph.ca [4] at least two weeks prior to the deadline set by Ontario Genomics.
External Deadline	Wednesday, September 23, 2020 - 9:00am	Applicants should submit their Final Supplementary Proposal directly to Ontario Genomics.

How to Apply

There is a three-stage, gated application process for this program:

1. Expression of Interest (EOI)
2. Project Pitch
3. Supplementary Proposal

Note that the EOI and Project Pitch content resembles a business case for the proposed project. At each of the above stages, Ontario Genomics has developed a due diligence review

process, where a panel of industry experts and entrepreneurs provide feedback to help teams navigate the application and increase their competitiveness. **These reviews are mandatory for all Ontario projects.**

Applicants should anticipate the following phases in the application process:

1. Submission of draft EOI to Ontario Genomics.
2. Face-to-face business pitch to due diligence review panel (see [panel members](#) [5]).
3. Development of final EOI through active collaboration with Ontario Genomics.
4. Submission of EOI to University of Guelph Office of Research (two weeks prior to deadline set by Ontario Genomics)
5. Submission of EOI to Genome Canada.
6. Teams invited to Project Pitch stage: Perform practice pitch with Ontario Genomics before official pitch to Genome Canada.
7. Teams invited to Supplementary Proposal stage:
 1. Submit draft Supplementary Proposals to Ontario Genomics.
 2. Development of final Supplementary Proposals through active collaboration with Ontario Genomics.
 3. Submission of final Supplementary Proposals to University of Guelph Office of Research (two weeks prior to deadline set by Ontario Genomics)
 4. Submit final Supplementary Proposals to Ontario Genomics for panel review before submission to Genome Canada.

Application Forms and Submission:

For copies of the current forms, or to submit an EOI, please contact: Helen Petropoulos (hpetropoulos@OntarioGenomics.ca?subject=GAPP%20Round%2019 [6]), Director, Commercialization and Programs.

Information For Co-applicants

If you need to meet a deadline set by the lead institution for this opportunity, please ensure that you provide the Office of Research with at least five days in advance of the lead institution's deadline to review the application, or your proposed component of the project. Please be in touch with the Office of Research (contact information below) ahead of the deadline if it looks like it will be difficult for you to submit all the required documentation on time (i.e. budget, proposal, OR-5 Form).

For Questions, please contact
