Sponsor

Ontario SPOR SUPPORT Unit (OSSU)

Description

In the EMPOWER Awards V, OSSU is soliciting proposals linked to patient-partnered and citizen/public engaged research that has the capacity to deliver impacts related to health and health system challenges in Ontario. The application and impact of the work should be relevant and tailored to the needs of stakeholders in the province (from patients to healthcare practitioners, to health policy and the health system).

The Ontario SPOR SUPPORT Unit (OSSU) is inviting proposals from qualified groups for additional knowledge mobilization and implementation funding to empower patient-oriented research projects to achieve broader impacts on health, health policy and health system for Ontario.

Program details and timeline are not yet confirmed. This information will be updated when the program launches.

In order to be eligible for this funding opportunity, proposals must identify:

- That the proposed research and knowledge translation team incorporates patient partnership in the proposed activities; and,
