Description

Grants awarded through this program are intended to provide support for the investigation of key unresolved research questions in autism, particularly those that connect etiologies to brain function and behavior. Unlike SFARI Pilot Awards, risk and novelty are welcome but are not required criteria for the proposal to be considered meritorious. Competitive applications will have preliminary data or other relevant groundwork that justifies substantial investment on the proposed topic.

Eligibility

All applicants and key collaborators must hold a Ph.D., M.D. or equivalent degree and have a faculty position or the equivalent at a college, university, medical school or other research facility. In addition, eligible applicants must have independent lab space at their institution.

Maximum Project Value

The maximum budget is $1,300,000, including indirect costs

Indirect Costs

20%

Project Duration

up to four years.

Special Notes

US Public Health Service (PHS) Federal Conflict of Interest Requirements (FCOI):
Applications to this program must be accompanied by a Significant Financial Interest Disclosure
Form (see Appendix B of the US PHS FCOI Requirements [2]). Please refer to the information
posted on the Office of Research Services website for more information on researcher
responsibilities under the US PHS FCOIRequirements [3].
