Description

All Independence Award programs engage talented early-career scientists from diverse and/or historically underrepresented backgrounds to pursue research in either autism science (SFARI), computational and systems neuroscience (SCGB), or cognitive aging (SCPAB), while facilitating their transition into independent faculty positions at a research institution.

Independence Awards are currently offered through three programs: the [Simons Foundation Autism Research Initiative \(SFARI\) Bridge to Independence Award](#) [2], the [Simons Collaboration on the Global Brain \(SCGB\) Transition to Independence Award](#) [3], and the [Simons Collaboration on Plasticity and the Aging Brain \(SCPAB\) Transition to Independence Award](#) [4].

Eligibility

To be eligible to apply for the Independence Awards, applicants must meet the following criteria.

- The program is open to individuals who self-identify as members of diverse groups within these categories: race, ethnicity, disadvantaged social and/or economic background, gender identity, sexual orientation and disability status.
- U.S. citizenship or permanent resident status is not required.
- Applicants must hold a Ph.D. and/or M.D., or equivalent degree.
- Applicants must be currently in a non-independent, mentored training position as recognized by their institution.

- Applicants must be actively seeking and applying to tenure-track faculty positions at research institutions within or outside the U.S. between September 2024 and May 2025. Independence Fellows are expected to apply, secure and transition to a tenure-track faculty position at a research institution within or outside the U.S. by the end of the 2025–2026 academic year.
- Applicants may not simultaneously hold other career development awards with similar budgetary scopes, such as: NIH K99/R00, Burroughs Wellcome Fund Career Award, American Academy of Neurology Career Development Award and Howard Hughes Medical Institute Hanna H. Gray Fellowship.
- Applicants must not have accepted a formal offer for a tenure-track faculty position by the time of award notification.

Maximum Project Value

Independence Fellows will be provided with up to five (5) years of support, split into two awards: 1) Postdoctoral Award (for a maximum of two (2) years), and 2) Faculty Research Award (over three (3) years). The Postdoctoral Award includes an annual salary of \$85,000, fringe benefits, an annual resource and professional development allowance of \$10,000, and indirect costs. Upon assumption of an approved tenure-track faculty position, fellows receive the Faculty Research Award of up to \$600,000 total over three years including indirect costs.

Indirect Costs

20%

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Wednesday, January 3, 2024 - 4:30pm	Applicant to submit a copy of application and signature page along with a complete OR5 form to: research.services@uoguelph.ca [5].
External Deadline	Wednesday, January 10, 2024 - 12:00pm	Applications should be started and submitted under the applicant's own account on Simons Award Manager (SAM) [6]. Applicants are encouraged to submit in
