## Program

SSHRC Partnership Engage Grants [2]

## Description

Partnership Engage Grants are expected to respond to the objectives of the Research partnerships program [3]. However, Partnership Engage Grants cannot respond exclusively to the objectives of the Research partnerships program.

These grants provide short-term and timely support for partnered research activities that will inform decision-making at a single partner organization from the public, private or not-for-profit sector. The small-scale, stakeholder-driven partnerships supported through Partnership Engage Grants are meant to respond to immediate needs and time constraints facing organizations in non-academic sectors. In addressing an organization-specific need, challenge and/or opportunity, these partnerships let non-academic organizations and post-secondary researchers access each other's unique knowledge, expertise and capabilities on topics of mutual interest.

SSHRC welcomes applications involving Indigenous research [4] as well as those

involving [research-creation](#) [5].

For tools and resources to assist in the planning and implementation of your partnership, see SSHRC's [Partnerships Tool-Kit](#) [6].

## Types of partnerships

Following are some possible formal partnership approaches. Applicants are in no way limited to these approaches and are welcome to combine some of the features described below.

- Cross-sector co-creation of knowledge and understanding: Partnerships to foster innovative research, training and the co-creation of new knowledge on critical issues of intellectual, social, economic and cultural significance.
- Partnered knowledge mobilization: Partnerships designed to synthesize, apply and mobilize new and existing social sciences and humanities research knowledge in accessible ways to build institutional capacity and to increase the national and international impact and stature of Canadian research.

### Joint initiatives

SSHRC collaborates with organizations from across the not-for-profit, private and public sectors to support and promote training, research and connection activities in the social sciences and humanities. SSHRC's joint initiatives are designed to reflect its strategic objectives and mandate, inform decision-makers, and, in certain cases, address specific needs of its partners.

Learn more about [joint initiatives](#) [7].

For a complete list of available joint initiatives, see SSHRC's [funding search tool](#) [8].

### Future Challenge Areas

SSHRC invites all applicants to review [Imagining Canada's Future](#) [9]'s 16 future global challenges and to consider addressing one or more of these areas in their research proposal. This is not an evaluation criterion for merit review and does not offer additional or dedicated research funds for this funding opportunity.

## Maximum Project Value

Partnership Engage Grants are valued at $7,000 to $25,000 for one year.

## Indirect Costs

There are no indirect costs on the funding provided directly by SSHRC. The external partner(s) funds are subject to the applicable indirect cost rate as specified in the [Full Cost of Research Policy](#) [1].

# Special Notes

## Salary research allowance

Co-applicants [10] from eligible not-for-profit organizations can request a salary research allowance [11] to release them from duties to their organization.

## Guidelines and related support material

All applicants for SSHRC funding should consult the following guidelines while preparing their applications:

- SSHRC's Definitions of Terms [12] for terms used in the grant application process
- the Guidelines for Effective Research Training [13], which can also be useful to reviewers and postsecondary institutions
- SSHRC's Indigenous Research Statement of Principles [14] and Guidelines for the Merit Review of Indigenous Research [15] for applications involving Indigenous research [4]
- SSHRC's definition of knowledge mobilization [16] and its Guidelines for Effective Knowledge Mobilization [17] for guidance on connecting with research users to create impact
- SSHRC's Guidelines for Support of Tools for Research and Related Activities [18], for clarification on how applicants can include up to $7,000 of funding for research and research-related tools in any SSHRC grant application.

# How to Apply

There are four funding cycles per year: May 22, September 15, December 15 and March 15 (8:00pm EST). Please see internal deadlines above for earlier due dates to the Research Services Office.

The results will be announced in August, November, February and May, respectively.

Applicants must complete the application form online in accordance with the accompanying instructions [20]. Applications must be submitted electronically by an authorized research grants officer, or equivalent, from the applicant's institution.

# Information For Co-applicants

If you need to meet a deadline set by the lead institution for this opportunity, please ensure that you provide the Research Services Office (RSO) with at least five days in advance of the lead institution's deadline to review the application, or your proposed component of the project. Please email RSO at research.services@uoguelph.ca [19] ahead of the deadline if it looks like it will be difficult for you to submit all the required documentation on time (i.e. budget, proposal, OR-5 Form).
