

## University Research Excellence Awards - 2020

### Sponsor

University of Guelph

### Description

The University of Guelph Research Excellence Awards highlight research achievements of recently tenured faculty members.

Research excellence is recognized as scholarly output that has demonstrably internationally impact within the nominee's discipline. This will include published works, but may also comprise other forms of scholarly output, research-related knowledge mobilization, research-derived innovation, and training of highly qualified personnel. The candidate should be on track to gain, or have already received, national and/or international recognition.

### Eligibility

To be eligible, a faculty member should be within 2 years of having been awarded tenure at the time of application.

### Prize

Each college will receive one Research Excellence Award per year (from date of Notice of Decision), for a total of 7 awarded across the university.

Recipients of Research Excellence Awards hold the award for one year. During that year, each Research Excellence Award recipient will receive a \$5,000 research prize, deposited in the awardee's general purpose research account. Colleges may wish to augment this award (e.g., with additional research funds or course release). One of the seven Research Excellence Awardees will receive special recognition, and receive an additional \$5,000 research prize, deposited in the awardee's general purpose research account, for a total of \$10,000.

Recipients will be recognized at the Research Excellence Recognition Event.

### Special Notes

Each recipient may be asked to participate in a video organized by the Office of Research

Communications.

## Deadlines

**If College-level review is required, your College will communicate its earlier internal deadlines.**
