

Welch Award in Chemistry 2023

Sponsor

The Welch Foundation

Description

The purpose of The Robert A. Welch Award in Chemistry is to foster and encourage basic chemical research and to recognize, in a substantial manner, the value of chemical research contributions for the benefit of humankind as set forth in the will of Robert Alonzo Welch. The founder was interested in chemistry and in its service to both the betterment and the understanding of human life. We also believe this award plays an important role in aiding and strengthening the other programs of the Foundation.

In accordance with these principles, the award committee will consider any person who has made important chemical research contributions that have had a significant, positive influence on humankind. The Welch Foundation intends that the award recognizes the contributions of an individual who has not previously been recognized in a similar manner.

Eligibility

Any person can submit a nomination for consideration, but no self-nominations are allowed.

Directors and officers of the Foundation and members of the Scientific Advisory Board (SAB) of the Foundation may not make nominations nor are they eligible to receive the award. Former SAB members are eligible to be nominated four (4) years after the calendar year in which they left the SAB.

Prize

The recipient will be required to be present at a ceremony and banquet in Houston, Texas in the month of October. The monetary amount of the award is \$500,000 and the winner will also receive a gold medallion.
