

## **Supporting industry-academic collaborations in Quebec and Ontario**

Date	Location
Wednesday April 6, 2016 9:00am to 9:00am	Ottawa Conference and Event Centre

### **Description**

Ontario Centres of Excellence (OCE) and Prompt Ltd. are launching a \$3-million program that aims to develop innovative new technologies, products and services in cybersecurity. These projects are intended to support and provide solutions to advance Canada's cybersecurity strategy, which seeks to secure government systems and protect citizens, companies and key infrastructure underlying our economy.

On Wednesday, April 6 we will host a Partnering Forum at the Ottawa Conference and Event Centre. This will provide you with the opportunity to learn more about the program, hear from keynote speakers, participate in B2B networking sessions as well as network with potential industry or academic partners from both Quebec and Ontario.

Please [register now](#) if you are interested in attending.

If you are unable to attend the event but would like to share your cybersecurity R&D challenge partnering needs with the event attendees, [please click here](#).

Full program details will be published in mid-March on [OCE's](#) and [Prompt's](#) websites.

Those interested in discussing this opportunity are welcome to contact:

#### **Francois Borrelli**

Vice President Partnerships Development

Prompt
