

World Water-Tech North America summit

Date

Wednesday October 19, 2016 9:00am to 5:00pm

Description

At this Fall's [World Water-Tech North America](#) [1] summit in Toronto, supported by SOWC, the focus is on accelerating innovation in energy optimized and climate resilient infrastructure.

An outstanding [speaking faculty](#) [2] from innovative municipalities, private utilities, corporate investors, engineering giants and emerging technology companies will meet in Toronto to discuss accelerating innovation in energy optimized and climate resilient infrastructure. This is a great opportunity to hear best practice case studies of energy optimization and network management from the world's leading water companies, and to learn how to build a successful commercial model for re-use and resource recovery.

The World Water-Tech North America forms part of the Ontario Water Innovation Week in Toronto from October 17-21, 2016. The week includes two major anchor events. Water Innovation in Action 2.0 (October 18) is a one-day event focused on bringing together Ontario's water sector stakeholders to measure progress and plan for the future. The fourth annual World Water-Tech North America 2016 (October 19-20), hosted by WaterTAP and Rethink Events, will bring global leaders to Toronto to discuss water innovation and investment.

SOWC are offering members a \$300 saving, please quote SOWC16. [Register now](#) [3].
