Description

The Subatomic Physics Research Tools and Instruments (SAP-RTI) grants foster and enhance the discovery, innovation and training capability of researchers in the field of subatomic physics by supporting the purchase of research equipment and installations. SAP-RTI grants are awards that assist buying or developing research equipment that costs more than \$7,000.

SAP-RTI grants are divided into three categories, according to the total net cost of the equipment, i.e., excluding taxes, shipping and handling. These categories are:

Category 1: \$7,001 to \$150,000;

Category 2: \$150,001 to \$325,000; and

Category 3: more than \$325,000

Applications to SAP-RTI Program are not subject to a quota.

Eligibility

Please refer to [NSERC's overall eligibility criteria](#) [3] for more information. Applicants that have submitted an NOI on or before **August 3, 2015 by 8:00 pm** (Categories 2 & 3 only) are eligible to apply. There is no NOI stage for Category 1.

Applicants must:

- Hold a minimum three-year appointment (fulltime, contract or adjunct) in an academic position with a firm offer in writing at the time of application.
- Hold or have applied for (submitted) a Discovery, Strategic (Networks and projects), CRD, or NSERC-funded Canada Research Chair funding.

Maximum Project Value

See Category 1, 2, 3 above. If requested, NSERC will pay all of the applicable taxes, as well as all the shipping and handling expenses.

Indirect Costs

0%

Project Duration

1 to 3 years; Category 1 are one-year awards. In exceptional cases, multi-year requests will be accepted. Categories 2 and 3 are typically three years, but if exceptions are made to the duration, NSERC asks applicants to contact them.
