

Ontario Ministry of Natural Resources and Forestry: Species at Risk Research Fund

Sponsor

Ontario Ministry of Natural Resources and Forestry

Description

The Ministry of Natural Resources and Forestry is now accepting applications for the 2016-2017 Species at Risk Research Fund for Ontario (SARRFO).

The SARRFO supports the protection and recovery of species at risk by funding high quality scientific research that addresses key threats, knowledge gaps, and informs better species protection and management.

Although all project proposals that target species listed on the Species at Risk in Ontario List are eligible for funding, targeted priorities have been established for the 2016/17 funding year.

Applications that address any of the priorities will be considered before remaining applications.

During the evaluation of applications, additional weighting will be given to applied research proposals that address an impending on-the-ground threat or knowledge gap.

Please consult the [2016/17 PRIORITIES and SPECIES list](#) [1].

Eligibility

The SARRFO is open to individuals and organizations undertaking high-caliber scientific research activities that will address key threats or knowledge gaps and inform the protection and recovery of species at risk in Ontario.

All SARRFO applications must clearly identify a Principal Investigator for the proposed project.

The Principal Investigator (PI) must be a recognized expert in the area of proposed research who is charged to conduct objective research that generates independent, high quality, and reproducible results. The PI is responsible for the design, delivery, and reporting of the research project and for monitoring, and ensuring the integrity of any collaborative relationships.

Additionally, the PI is responsible for project management including oversight of compliance, financial, personnel, and other related administrative aspects of the research project. In the

case of graduate students (Master's or PhD), the supervisor should be designated as the PI rather than the student.

Funding Availability

- Maximum amount: \$30,000 per year per project
- Project duration: One to two years
- Indirect costs: Not Applicable

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date
Internal Deadline	Tuesday, December 1, 2015 - 4:30pm
External Deadline	Tuesday, December 15, 2015 - 11:45pm
